# Divide and Conquer

Greetings, my dear beloved children!

Today we are starting a new part in the series of our messages called "The Second Coming of Christ."

But first, we'd like to tell you what kind of changes has happened with the Teaching of Christ and why it has happened.

Let's now call Yeshua by the name of Christ, which is more familiar to you, because his teaching became known as Christianity.

As we have said before, by the time of Yeshua the power on Earth everywhere had already belonged to the race of Dragons - reptiloids, who skillfully encoded their programs into the consciousness of the people, that helped them to keep people fearful and enslaved.

They invented the well-known expression "Divide and Conquer." You may easily call it the slogan of the reptiloids.

The Teaching of Christ, which had started to conquer the earth, was a great menace for them, because it could lead the consciousness of the people out of their control, transforming the obedient citizens into the free and independent creators of their own lives. That was not a part of the plan for the reptiloids.

In the beginning, they had tried to destroy the followers of Christ physically. But the Faith of the people has been so strong, that they could even face their own deaths with joy; knowing that death does not exist, when their souls reach Heavens, they would return home - in the lap of their Creator.

And then reptiloids decided to use the Teaching of Christ for their advantage. They developed devious plan; keeping the external shell of Christianity, to distort its inner content, by removing from it its main meaning - the Divine essence.

The first thing they have done was to remove the knowledge about reincarnation, and by doing that narrowing the scope of human existence to one incarnation.

Why have they considered it dangerous?

## THE SECOND COMING OF CHRIST

They knew, dear ones, that limitations of any kind lead to diminishing of human consciousness, putting it "in the box," which allows to control easily human thoughts and actions.

But the most devious thing was in presenting God in their own image, transforming him into a judge, who controls human lives, who decides whom to punish and whom to pardon, which leads to transforming people into the "slaves" of God.

They kept hidden the knowledge that people are Gods - the particles of the Creator, who had descended to earth to enrich their souls through the unique experience of living in the world of duality on this beautiful planet.

But then, they went even further by announcing that clerics are Divine representatives on Earth, acting in God's name, giving them the unlimited power over human souls.

Thus, their main slogan "Divide and Conquer" was also applied to church, which announced that God is the lord and the people are his "servants."

The deviousness and cunning of their plan was in using the main plot of the life and death of Christ, but putting the emphasis on his death - on his crucifixion, which carried completely different energies, based on cruelty, pain and suffering.

5

The symbol of Christianity has become Christ, crucified on the cross, whose depiction was placed in every church and cathedral.

The people, without realizing that, started to "feed" reptiloids with their energies of suffering, morning over Christ and observing these bloody pictures.

With time, reptiloids learned how to draw people into religious wars, forcing them to kill each other in the name of God.

As you can see, dear ones, they had distorted the essence of Yeshua's Teaching so much, that Unconditional, Unlimited and All-Forgiving Love, which has been the basis of the Teaching, was transformed into death, pain and suffering for many people.

# The Bible

Greetings, my dear beloved children!

Let's continue our story about the Teaching of Christ and how it has been affected by changes over the course of time.

Since your knowledge of it comes mainly from the Bible, we will discuss the holy book today.

The Bible is composed of the Old and the New Testaments.

While the Old Testament was entirely created by the Dark forces, the New Testament has in it seeds of truth and glimpses of the Divine energy that Yeshua tried to share with us.

How is it possible that the Dark forces invaded the holy of holies - the Bible, which was supposed to show Light and Love to people, to teach them to live according to the Divine laws of the Universe?

As you may know, long ago, representatives of the Draconian race on Earth - reptilians – used the religion as a way to enslave the human mind.

That's why they created their own version of the history of mankind - long, confusing and bloody, as well as their own God, who was supposed to keep people in fear and obedience.

But the Old Testament they created was so sinister that many people rejected it, feeling its falseness.

Therefore the reptilians, having seized the initiative from the true followers of Christ, created the New Testament, which included many elements of the Teachings of Christ. However, as already mentioned in [the previous message](#), the wrong emphasis significantly changed the essence of the Teaching itself.

If Christ taught people that they are parts of God on earth, free and independent and that their life should be filled with Happiness and Joy, Light and Love, the New Testament, like the Old one, drove them into the rigid frames of submission, obedience and worship of God.

## THE SECOND COMING OF CHRIST

Consequently, the doctrine of Christ became a fixed dogma, and God the Father and Christ were turned into the idols to be worshiped, thereby separating them from people.

People appeal to them using complicated and entangled prayers they memorized, instead of talking to them simply and sincerely as with the dearest and closest beings.

This "barrier" of canons was created in order to distance people from God, to lower the level of energy of human communications with the Higher Forces of the Universe.

But still, despite all the ruses, God lives in the soul of almost every person. People feel his presence by intuition, and they ask him for help in difficult moments of their life. And if it serves them for good, then such help surely comes to them.

In the course of the two millennia that have passed since the Ascension of Christ, hundreds of great souls have been coming to earth with the mission to awaken humanity.

They are the ones who you call holy and who, like Yeshua, performed miracles both on earth and in Heaven.

No one and nothing has managed to blow out the spark of God which Christ brought to earth and which at all times illuminates the secret parts of the human soul, where true spiritual values are hidden, thereby bringing the person back to God, preventing him or her from fully plunging into the dual world.

And now, when the Earth is getting to a new Divine "turn" of development, none can blow out this spark, since all the Forces of Light of the Universe got together to help you, our beloved ones.

They bring you the pure, veritable knowledge about the history of the Earth, about the laws of the Universe, about life and acts of the greatest souls who fulfilled the mission of Serving humanity.

They help you go through this unique period of the Earth's transition into the fifth dimension, feeding you with the energies of the highest vibrations.

Of course, Christ and Mary Magdalene, so beloved by you, did not stay away from this great fateful passage in the life of the Earth.

We will stop here today.

Father-Absolute and Mother of the Universe, who love you without measure, spoke with you

## Reptiloids

Today we'll speak with you about the reptiloids.

Now when you know the true history of humanity, it would be easier for you to understand what is happening on Earth.

It is very sad to admit, but despite all the efforts of the Higher Powers to free humanity from the power of the reptiloids, who are solidly entrenched on Earth; despite numerous spiritual deeds performed by the great souls, who had come to Earth at different times and in different countries; reptiloids could hold on their power. And not only hold on the power, but to strengthen it.

8

Why had it happened?

The truth is, dear ones, that these beings do not have Divine souls, which means they lack those subtle organs of feelings, which human beings possess, who have many nuances and shades of feelings such as consciousness, honor, worthiness, compassion, empathy, tact, gentleness...

Of course, a person living on Earth is subject to many emotions, because the world of duality is filled with negative energies. And they draw people in like a funnel, depriving them of the opportunities to live in joy and harmony with themselves and with the world.

Nevertheless, human beings possess a certain inner barrier - a deep realization of their Divinity, which does not allow them to step over the line, behind which starts GODLESSNESS.

## THE SECOND COMING OF CHRIST

But the reptiloids lack such a barrier, because their souls have different nature, which is based on Ego with only material needs, and on the division of everyone as "us and strangers."

It happens because their upper chakras, which unify humans with God, are blocked, and they are not capable of the generosity of the spirit and unconditional love.

Reptiloids had worked tirelessly according to the program, installed in them by their "masters," the Dragon race.

The essence of the program was to enslave the consciousness of the people, to kill their Divine origin, and to make people their "servants."

And this is the truth, dear ones, which you need to know in order to resist the "occupants" of your earth, who, in contrast to you, do not have any moral rules or barriers.

They are the "generators" of all kinds of negative energies, because this is their main "fuel," without which they simply cannot exist.

They draw this energy from the most different sources, taking charge in media, placing their representatives in the positions of power in TV, radio, creating social media networks on the internet - this universal "web" where an undeveloped young souls are caught...

They seduce people, imposing false concepts about life, and forcing them to pursue material values, in detriment to the spiritual ones.

And we must admit that they do that very subtly, skillfully and deviously.

The final goal of their actions is to transform people into the faceless uniform masses, who could easily become subjects to the stereotypical thinking and behavior imposed on them.

And in order to reach these goals, they don't stop at anything. They kill people with GMO products, artificially created vaccinations, expensive medications, which not only don't help people, but, on the contrary, decrease their immunity and create many illnesses.

In such a way, they try to artificially regulate the population of Earth, making a huge amounts of money at the same time.

## THE SECOND COMING OF CHRIST

All the financial institutions are in the hands of reptiloids for a long time, which means they have power, because in the world of duality money and power are indivisible.

But their worst crime against humanity is in the chipping that started everywhere, which means "robotization" of the people that allows complete control over them.

We cannot wait any longer.

And we believe, dear ones, that the Second Coming of Christ, which we'll address in the following messages, would save you and your Earth from perishing.

We'll stop here today.

## Divine Landing

Today we'll attempt to explain to you in the most simple and accessible form what is Divine "thawing," what is its nature, and what is the mechanism of its appearance.

Today we'll speak about the greatest souls who now come to your planet in the great numbers.

Imagine their Mother Soul as a luminous sun, which sends out many rays.

At the same time, each ray is not only separate part of Mother Soul, but consists of its male and female principles or both parts of the same soul.

And because they cannot incarnate on Earth as one body, they are born as a man and a woman, who personally select the best conditions for their incarnation such as the country, social environment, and the time of birth.

Such souls - twin flames - could start the most valuable Great Service only when they unite their energies into one - balanced, harmonious Divine energy.

Their unification on the physical plane happens extremely rarely. And there are many reasons for that.

After incarnating in the physical body on Earth, they don't remember, with rare exceptions, who they are, where they come from, and why they incarnated at this time.

## THE SECOND COMING OF CHRIST

That is why the Higher Powers and their Guardian Angels come for their help, "leading" such souls from the moment of their births.

They are the ones who "arrange" the meetings with "necessary" people, who help them to step on spiritual path, who "throw" them necessary information in the form of books, magazines, internet sites, lectures, movies, etc.

Higher Powers guard this soul from dangers, both physical and "moral," purifying its consciousness from the influence of the programs that are "alien" to the soul.

And they do that in order to help the soul to meet its other half, its missing part, to help them "recognize" each other, to feel it in the heart.

They arrange unbelievable Heavenly "combinations" to ensure such a meeting on a physical plane, because on a subtle plane they are always together.

It's very important for the following reason.

Being in a physical body, a spiritually developed person is able to generate within such a great amount of Divine energy that it is compatible with the energies of hundreds of saints, abiding in Heaven and sending humanity their energies of Love.

11

Your physical body, dear ones, is a Divine instrument, so perfect and multi-faceted, with unbelievable powers hidden within.

But when the bodies of the Unified Great Divine Soul are united, not only energetically but physically, such a great powerful charge of the higher vibrational energy is created that it is capable of changing the world.

And the brightest example of that is the harmonious Divine union of Yeshua and Mary Magdalene, who had been fortunate to meet each other on Earth.

Unfortunately, such meetings are extremely rare, because too many factors influence a person, geographical, physical, social, and moral...

To ensure that at least one such "a ray," sent by Motherly Soul, could start their Service as both a male and female parts of one twin flame, a real Divine landing has been sent to Earth, consisting of the thousands particles of the greatest souls, who had ever come to Earth. It has been done to help them finish what they had started some time ago in different physical bodies, acting alone or together with their twin flames.

## THE SECOND COMING OF CHRIST

We'll stop here today.

# Great Souls on Earth

Today we'll continue our conversation about the Divine "thawing," which is the mass arrival of the greatest souls of the Universe to Earth, which definitely can be called the Second Coming of Christ.

We know that many of you may be disappointed because the Miracle of Christ Coming would not happen.

But if you realize the greatness of our plan, you'll understand that even the greater Miracle has happened.

Yeshua, Mary Magdalene, Mother Mary, Apostles, Archangels, Ascended Masters have incarnated on Earth with thousands of their particles.

They themselves had chosen their last incarnation in the human bodies to help people to come out of the "dungeons" of duality; to help them to go through the difficult path of liberation of their consciousness from the programs of three-dimensional world, which had held them in "captivity" for so many centuries.

Of course, not all these particles of the Great Souls were able to start the path of Service.

Thousands of them could not overcome the social barriers, the opinions of others, judgment and misunderstanding of their families.

Some of them were broken by life's difficulties, physical ailments, fear for their future, family obligations...

We could name many reasons why the Great Soul could not fulfill its mission, to which it aspired so much. It is understandable from the human point of view.

But because this is not a simple Soul, the Higher Powers would not leave it alone.

Even before an incarnation on Earth, they promised to the soul to do everything possible to ensure that she would not turn away from the chosen path; that she would realize its cherished dream - to ascend in the physical body together with Earth into the fifth-dimensional space and help many other people to achieve that as well.

## THE SECOND COMING OF CHRIST

That is precisely why the Higher Powers, Angels and Archangels do not allow such a "stumbled" soul to fall below their spiritual level, which she had gained at the price of many many incarnations and which had allowed her not to return to earth anymore.

But it has been her own choice to return here, a free and conscious choice. And now when the soul is here, she needs to finish what it has planned to accomplish.

So how is the help of the Higher Powers to such souls manifested?

From the point of view of the average man, it seems like cruelty, sometimes even extreme cruelty; because a person who "forgot" about his mission is lead through a series of very difficult tests, sometimes mental, sometimes moral, depending on what is most meaningful for each person.

It all starts gradually. Initially he is given small difficulties, which are meant to take this person out of his comfort zone, to force him to think about not material, but spiritual values.

But if it's not happening, he is given more serious tests, which literally drag him out of his habitual life. It could be the loss of wealth, illness or death of the family member, difficult handicaps.

But if even that does not help, such a soul is taken away from the physical plane of earth, to prevent it from falling too low, to ensure that he is keeping what has been gained through the centuries.

That is why, so many pure souls leave this world too early. But believe us, dear ones, it is done for their goodness, even if it is difficult for their families on Earth to loose them.

But more often, the Great Souls feel their own uniqueness, feel how different they are right from their birth. They are attracted to spiritual knowledge, listen to their intuition, feel aspirations of their souls, and as a rule step on their predestined path in the middle of their lives.

It is precisely such people who experience the opening of their channels of communication with the Higher Powers of the Universe, and precisely such people who bring much needed knowledge about the Great Ascension, and also numerous practices and meditations, which help you to keep up with the Earth.

But we'll stop here today.

# Why the Greatest Souls are returning to Earth

Before we resume our conversation about the Second Coming of Christ, it is necessary to tell you how the Great Souls are coming to earth.

We want you to realize what a courageous step they take.

They have reached the top of their spiritual growth, achieving such a level when they don't have to incarnate in physical bodies anymore, but could continue their evolution on a subtle plane, traveling throughout the Universe or uniting with their Star family.

But because these souls had incarnated on Earth more than once, they have come to love your beautiful planet with all their hearts, in spite of the most difficult tests they had to experience here.

They are grateful for the unique experience they have gained here, and because they understand very well how difficult it is for most people on the spiritual path to overcome blocks and obstacles; many of them have chosen Service to humanity as their mission on Earth.

Of course, you know the names of many of them. They are those Great Souls, who left behind good memories on Earth, the ones whom people admire, to whom they aspire, to whom they turn for help at the times of great tests.

It is such an unbroken connection that does not allow many of them to leave for other worlds; to break away from the space around the Earth; where they abide so they could observe what's happening on Earth and help the ones who need help.

That's how that unseen bridge between the people and the Forces of Light, who are in Heaven, is created.

But the highest form of Love, demonstrated by these Great Souls, is their decision to descend to earth again in order to continue their Service in physical bodies.

They know perfectly well that they may forget why they came to Earth, which happens quite often.

And, nevertheless, they go for it, throwing themselves down into the abyss, risking to lose that which has been gained through the centuries; and facing possibility to lower the level of their spiritual evolution.

## THE SECOND COMING OF CHRIST

To avoid that, they try to choose for themselves such families and such life conditions, which could help them to start their Service as soon as possible.

And now, there is such a unique environment on Earth that a few particles of different Great Souls could live in one family at the same time.

In Heavens before the incarnation, they have decided to ensure a success of their missions and to come to Earth as a group, hoping to remember each other in physical bodies.

And the great stream of spiritual knowledge and practices that now flows from Heavens helps them to remember who they are and what is the goal of their incarnation to Earth.

Numerous people are now allowed to know their previous incarnations and even to travel in their subtle bodies to other worlds, to different planets, and to their previous lives.

It helps them to realize the responsibility before their own Souls, and remember why and for what purpose they have come to this beautiful planet again.

And such people become the spiritual vanguards of the planet - the ones who lead others, who teach them Unconditional Love, showing them an example of a true Service - sincere and selfless.

Like magnets, they attract to themselves likeminded pure souls and gradually the Family of Light on earth is growing, paving the path for the others.

And we are happy that more and more particles of the Great Souls, who courageously descended to Earth at this crucial times, honorably fulfill their mission of Service for humanity, which they have taken upon themselves before coming to Earth.

But we'll stop here today.

## How to stay upon your chosen Path

Today we'll continue our conversation about the Second Coming of Christ, and will speak about how to be on the watch for dangers for the Great Soul, who stepped on the path of Service.

It has become especially relevant now.

We see how many of you, who succeeded in starting their predestined path, gradually become the victims of the three dimensional world that neutralizes all your efforts.

The people surrounding a person, who has entered his Service, often contribute to his downfall, because they start to see him as a messiah, a prophet, a guru or a teacher...

As a result, such a person begins to feel as a higher being, who descended from Heaven to Earth, separating himself with an invisible wall.

He becomes the greatest authority, and his every word - an undisputed truth.

Once again, the people have created an idol for worshipping.

Certainly, you know of many such examples.

On the other hand, those who are not aware of the events that are happening on Earth, who do not know anything about the Shift, about the energy changes of our Earth and its inhabitants, about the increasingly higher vibrations; who still live completely in the three dimensional world, would consider such Great Soul a charlatan, a false prophet, throwing mud at him and denouncing him.

Of course, we have shown you two extremes, but quite recognizable ones, is not it true?

So how should the Great Soul, who completely realized who he is and why he has incarnated on Earth, behave in such a complicated situation, being torn between the two extremes?

FIRST, under no circumstances, you should speak in vain of that which is dear to you, to the people who are unable to understand you.

## THE SECOND COMING OF CHRIST

SECOND, do not regard yourself or your mission too seriously, putting yourself on a pedestal and speaking down to people, preaching, using complex words and expressions.

Always remember that every true concept could be explained to people with the simplest words, in the easiest and most accessible form, with humor and funny examples from your life.

And then the most serious concepts would penetrate deeply into the human consciousness and would stay there forever.

THIRD, it is unacceptable to put yourself above another person, because each of you is worthy in its own way and you are all teachers and students at the same time.

FOURTH, if you are a Great Soul, who stepped on the path of Service, your help for other people must be absolutely selfless.

The knowledge, which the Higher Powers bring to the people, using your channel for connection, does not belong to you, but to the whole humanity, to the entire Universe. It is priceless and cannot be measured in any monetary value.

And what happens, dear ones, when such principles are broken?

17

In such a case, your connection with the Higher Powers is lost, and completely different beings connect with you; in the best case scenario they will be the beings from the Higher astral world, and in the worst case - the beings from the lower astral world; depending on what thoughts and emotions possess you at the current moment.

And because too many factors influence consciousness of the human being, who lives in duality, he could "swim" in a very different energy range, accepting an information from the Higher Powers and from the astral beings.

His channel of communication can be compared with the unseen scale of vibrations. And depending on which level of vibrations a person stays at each moment, he attracts the beings who are at the same level of vibrations.

That is why, dear ones, it is so important to keep your Soul and your consciousness pure, which is a guarantee that the Higher Powers of the Universe would speak with you and not the ones who would like to speak in their name.

## The last parting words

Thus, the series of our messages named “The Second Coming of Christ” are coming to an end.

And today we would like to sum up everything that has been said.

We informed you about the history of the origins of humanity, we led you through the main stages of its development, told you about the true lives of Yeshua and Mary Magdalene, and about the changes that the Teaching of Christ underwent during the last thousands of years.

Thus, we gradually brought you to the main goal of our story - revealing the true meaning of expression “The Second Coming of Christ,” which means **the mass coming to Earth the particles of the Great Souls, who left an indelible imprints in the hearts of the people and who raised them to the new spiritual height.**

And we know that many of you, who read our messages on this site, are these Great Souls, who have come to Earth with a single goal - to help humanity to ascend together with Earth into the fifth dimensional energy space.

18

It will be a completely different Earth - with a different geography, because the continents will change, with the new vibrations, which will raise humanity to the new level of spiritual development.

You have been reading so much about it, dear ones, and dreaming about the Shift so much, that what remains for you to do now is to make the last step, in order to stay on that spiritual height, to which you have ascended through incredible efforts and sometimes considerable sacrifices from a point of view of the three dimensional world.

And today as a blessing from us, we would like to give several advices - how to conclude your great missions on Earth honorably, that you would never have to return to duality of the third dimension on other planets.

Thus, our first advice. Never under any circumstances do not betray the work of your Soul - the Service for the goodness of humanity.

It may be anything, but it's main principle consists of your ability to bring the knowledge to people softly, gently, unobtrusively, respectfully, while filling each word you utter with Light and Love.

## THE SECOND COMING OF CHRIST

Become an example of the person of the future - someone whom people would like to emulate, something you have already done in your previous lives.

Second advice. Do not tell that you are a Great Soul, even if you know that about yourself.

Not all the people are ready to accept that, and most likely they would call you an impostor.

And the ones, who would believe you, would start an unnecessary fussing around your name, and by doing that may create a new idol for themselves.

You don't need worship, don't you, dear ones? And you don't need judgment too. Both of them would not bring you joy.

The most important thing for you is to carry the Light and true Divine knowledge to the people.

And if you would see the results of your work - how the consciousness of the people is changing, how their values and priorities are changing, it would bring you such happiness and joy which cannot be compared with anything.

19

And the third advice. Let all your accumulated spiritual knowledge flow into your practical life, every day, every hour, and every minute. It would not be accomplished by your ability to discuss spirituality and lofty matters, but by the ability to live always staying in the higher energies of Light and Love; that would prove to be a Divine "achievement," meaning fulfilling the mission of awakening of humanity taken upon yourself.

And we bless you for that, our beloved children, who courageously descended to Earth in such difficult times for our planet!

Father-Absolute and Mother of the Universe, who love you without measure, spoke with you

# You are capable of creating miracles

Greetings, dear ones!

Today I come to speak with you as with the people who are very close and dear to me.

I am very pleased that after the series of messages, which have been given to you by the Father-Absolute and Mother of the Universe, you learned the truth about my life and understood that in spite of the tragic end, from the point of view of the three dimensional world, my life has been very happy, bright and intense.

I have been surrounded by the love and understanding of my loved ones, which has given me so much power, joy and inspiration.

The Creator have gifted me with the meeting of my beloved woman - my priceless twin flame, which doesn't happen often on earth.

I have known the joy of the fatherhood, in spite of the fact that I have not had much time to be with my children.

My destiny has been very benevolent to me, sending me Heavenly gifts in the form of interaction with the Higher Powers of the Universe, and also with the numerous signs and prompts during the difficult times.

I was lead by the hand on that path, which my Soul has chosen, and I am immeasurably grateful for that.

The fact that I could realize my Divinity, while being in a physical body, in those times has been a real miracle, and it has become possible only because of the help from Heavens.

But today, dear ones, such a miracle is accessible to all, who have started on the path of Service, and I will explain why.

What's happening with the Earth now is a very real Transfiguration and Ascension, spiritual and physical, for her and her beloved children as her indelible particles.

Those of you, who have entered in the orbit of her Transfiguration and Ascension, raising your vibrations to her level, are capable of creating what I have done a long time ago, resurrecting by the transformation of my physical body.

## THE SECOND COMING OF CHRIST

But your Ascension and Resurrection would have a completely different character.

First of all, they will be mass events.

And another difference will be, that your Resurrection in reality would mean an awakening of your Soul from a deep spiritual sleep, in which it has been submerged in the world of duality.

And the Ascension, following the awakening, would be not a departure from the Earth plane, but the Shift together with the Earth into another energy space.

It can be compared with Heavens descending to Earth in order to nourish her and you with the new Higher vibrational energies, and not with you ascending to Heavens.

That's exactly what's already happening, dear ones!

And I am glad to observe how you are opening up to this new reality, opening up your hearts and souls towards it with complete trust.

I see that those of you, who once were immersed in the rays of this Divine bliss, who were feeling with all their hearts the beauty and depth of the Unconditional and Unlimited Love, would never be able to return to their former lives - it would appear to them so grey, colorless and mundane, with all its selfish desires and an eternal pursuit of the material pleasures, which has become the goal of life for the majority of earth population.

And I'd like to wish you, dear ones, not to divert from this blessed path, no matter what you'll meet on that path, no matter what tests will be given to you.

And especially now, when sensing their near demise, the Dark forces try to engage you in the last battle, you need to stay on the high ground, not retreating, not letting them destroy this gentle "growth" of Divinity, which is growing in your hearts.

Because you have come to Earth exactly for that - to be reborn yourself and to help others to be reborn too.

And I bless you, dear ones, for the Resurrection from the "death" of duality and for Ascension to the new spiritual heights of the Fifth Dimension!

And remember, that I am always near you, dear beloveds!

Yeshua, the one you are accustomed of calling Jesus Christ, spoke with you today

## My life without Yeshua

Greetings, dear ones!

I also would like to speak with you, because I have seen that you perceived a story of our life with Yeshua with so much love and sympathy like you had shared our path with us a long time ago.

And today I'll tell you what happened right after Yeshua's departure.

Soon after his Ascension, I departed to India, joining a big caravan, which was going to the northern part of India, and traveled an already familiar road for the third time.

I could not wait until the time I would embrace my children, who have become the main purpose of my existence.

22

The words cannot describe the joy that we were feeling after meeting each other again. Only after I have embraced and pressed them to my bosom, my heart started to melt after everything I had experienced in Jerusalem.

Although my beloved husband was coming to me in my visions and in my dreams, I really missed him in real life.

I lacked that spiritual fortitude and courage that he had possessed and unintentionally had given to me, when we had been together.

Left alone, I started to feel lonely and weak.

I understood that I could not completely substitute for Yeshua in Service, that it has been the destiny of men, and the lot of women has been to nurture children and simply to help people, giving them our warmth and Love...

Fortunately, our dear benefactors were still alive, although they have grown old through the years.

## THE SECOND COMING OF CHRIST

They have treated our children as their own. Our children were well fed, well dressed, and were educated in the good school in the Tibetan monastery.

They considered India their own motherland, although they knew about their origins.

Our son was already eleven, and our daughter was eight years old.

They both looked like their father and I could not take my eyes off them. They looked at me with Yeshua's eyes, and my heart was filled in turns with happiness and with great sadness.

I understood that no one, even my dearest children, could be a substitute for my beloved husband - my true half, with whom I had literally united during the years we had lived together.

But I had to find strength within myself to live for the sake of my children, for the sake of Mother Mary, broken with sorrow, who was waiting for us in Jerusalem.

I had to be strong as I had promised Yeshua before his departure.

I stayed in India for several months, enjoying our interaction with children and our beloved host family.

And then I had to make a very difficult for me decision - to leave my son in India, because he was completely filled with the spirit of this country.

But that time, he regarded Buddhism as a way of life and as a Divine Teaching, which he wished to study more deeply in the famous Tibetan monastery.

I decided not to oppose his wishes, realizing that he would feel strange and lost in another country.

I myself took him to the monastery, and was convinced that he would be happy there, such a great energy of peace, love and bliss emanated from this place and from the monks, who lived there.

I told my son everything that have happened with his father, and he accepted it with all the understanding he was capable of for his eleven years.

Of course, he could not realize in full measure all the greatness of what have happened with Yeshua, but he understood that his father has been a Great Soul and a "magician," who could show people real miracles.

## THE SECOND COMING OF CHRIST

After saying farewell to my son, Sara and I embarked on our return journey, which lasted one month.

My little girl warmed my heart and life without Yeshua did not seem so lonely and empty anymore.

We stayed in Jerusalem for a short period of time, because neither I nor Mother Mary, who had buried her husband many years ago, did not want to stay in the country where everything at every turn reminded us of our beloved Yeshua.

And we went to Italy, where I was born, where our new life started, which has been long and relatively happy.

We tried to share with the people the knowledge which Yeshua has been teaching, and were very happy to see how soon his Teaching was spreading around the world.

We always felt his presence and support.

It seemed as he was leading us through life, always coming for help and giving us advice in difficult moments.

24

And you, dear ones, don't you also feel that he is warming you with his warmth and love, sending you his signs and hints from Heavens?

Mary Magdalene, who loves you sincerely, spoke with you

## My “Resurrection”

Greetings, my dear beloved children!

Now it is my turn to speak with you.

After you have learned the true story of our lives; of Yeshua, my beloved son, Mary Magdalene and their children; I'd like to tell you how my soul has started the path of Service and why I have become so dear and close for you.

## THE SECOND COMING OF CHRIST

Of course, dear ones, the idea of the immaculate conception has been an invention of the church for imparting “divinity” for my son.

In reality, Yeshua was born as all children are born from my beloved husband Joseph.

But from the very beginning, we realized that our child was unusual, because the Heavens have sent us signs more than ones that the Higher Powers protect and take care of him.

That’s why we gave him to the Essenes for his education, who then were considered as saints, who had come from Heaven.

We realized that he would have his unique life path and never interfered with his destiny.

Joseph had died very early, and I had to endure alone the most tragic events connected with my son.

After his second trip to India, Yeshua have told me so much about his mission, and I’ve known before what kind of destiny was awaiting him at the end.

I have accepted his Teaching with all my heart, and after his exit from the Earth plane, together with Mary Magdalene I tried to explain to the people the foundations of this Teaching, telling them about the laws of the Universe and the Divine origins of men.

What’s happened after my departure from the Earth plane was similar to some kind of “Resurrection.” And that’s why.

Thanks to the legend of the immaculate conception, people started to regard me not as a regular earthy woman, but as the “Mother of God,” worshipping me and asking for help and protection.

At that time, I had stayed with my Star family in the seventh dimensional space, and that’s why I had been able to “catch” these energy currents flowing to me from Earth, carrying in itself the suffering of the people and pleas for help.

My Soul could not remain indifferent to that, because I remembered my earthy life and my own suffering.

In response, I sent to the people all my motherly gentle care, my Unconditional and Unlimited Love - the energy of the highest vibrations, which were able to dissolve low energies of pain, suffering, fear and despair.

## THE SECOND COMING OF CHRIST

And people felt better, after being released from their heavy “burden,” which in turn transformed the space around them, and then the events developed following completely different scenario.

The people considered that a miracle and worshipped me as a Saint.

Gradually, you started to call me “Mother” and it pleased me greatly, because I really love all of you as I love my Yeshua, and he had always called me Mother.

You “Resurrected” me with your love and trust, returning me to Earth, but in a different subtle quality.

And now, dear ones, I am always with you. That is my Service, which brings so much joy and happiness to my Soul that I would never exchange it for anything.

The particles of my Soul had descended to Earth more than once, incarnating in different bodies, but especially many of my particles are on Earth now, at this crucial for the planet time.

But Mother Soul of the one, whom you call Mother Mary, invariably stays with you, warming you with her warmth and Love, and I always hear each of you.

26

And now I say farewell, my dearest beloved children.

Mother Mary spoke with you
